Delay in Storm

Greenly Island

and Ready to Go

Watchers at St. Agnes See Support Found for Theory

CHICAGO, April 24. (Ex-clusive) — These are parious days for the barber. Women have invaded the shops and sadly interfered with old customs.

Yesterday the master bar-bers issued an ukase forbid-ding barbers to gossip with their customers. Today an-other sickening blow was ad-ministered when the Illinois Master Barbers' Association voted to abolish the tipping the property of the property o

in France Tallied

broke, a film plaine landed from of creenly Island with word that the Bremen was almost ready to deep part—and that Baron Gunther von Husnefeld was confined to his bed in La Templier's lighthouse with a severe cold.

After that machine took off for Montreal the storm descended and putdoor activity was virtually abandoned.

Word that came by wireless relays along the St. Lawrence from Greenly Island said the Bremen's repairs had been accomplished more quickly than had been expected. Maj. Fitsmaurice. Bernt Balchen, trans-Atlantic pilot, who few the big Ford relief ship in, Capt. Koehl and Ernest Roppen, Junkers mechanic, pitched in with the help of willing fishermen—and the Bremen soon stood on the smooth lee as airworthy as when she gilded off Baldonnel Airdrome, Dublin, on the 12th inst.

The wireless stations at Point Amour, Labrador, and Blanc Sablon, Que, have been instructed to fash word when the Bremen takes the sir.

INDREDICTION

LINDBERGH IN DASH TO QUEBEC

CURTISS FIELD (N. Y.) April 24. (P)—Col. Charies 'A. Lindbergh today turned all his skill and courage as an aviator to the task of saving the life of another greating. Physicians attending Bennett.

Physicians attending Bennett in Guebec, where the North Pole flyer is seriously iii, decided that they must have antispneumonia serum, available only in New York, and Lindbergh was selected to rush the life-saving fluid to Canada through his familiar medium, the air.

"Sure I'll take it, Lindbergh responded when told of the need." Let's go."

And for the trip an army plane was chosen that has a maximum speed of 180 miles an hour, a max-gine first part of his journey.

Bennett was stricken at Lake Ste. Agnes, Grfs, while on his way to lorsenly Idant to carry aid to the maroomed trans-Atlantic flyersthere. He was taken to Quebec by plane and specialists were hurried to his hospithi from New York. Today Br. A. L. Barach, in charge of the Mating Branet was chosen for the serum was imperative. He teliphoned to John D. Rockefeller, Jr., in New York, and appealed to him to supervise personally the dispatch of the serum from the Rockefeller Institute.

Mr. Rockefeller telephoned Harry Guggenheim, president of the Gugenheim from the Rockefeller Institute.

Mr. Rockefeller telephoned Harry Guggenheim, president of the Gugenheim home, agreed without hesitation. There was some delay in having the serum prepared by the institute, and Guggenheim and Lindbergh were in New York when word came that it was ready.

ayer of shale just above the lime-tone by O. E. Sturdevant, Grand Janyon National Park naturalist. EXHIBIT FOUNDED

It is in this region, where some of the rock formations are estimated to date back 1,400,000,000 years, that the academy, with the financial support of the Carnegie Corporation through the Carnegie Institution of Washington, is establishing a permanent exhibit of evidences of prehistoric life in their natural environment. These exhibits already cover a span of about 300,000,000 years. MISTERY OF HEAVENS'

than that and new straight to his objective without deviation from his course.

**SURER FILL TAKE IT:

At no cost to your feet

CURTISS FIELD (N. Y.) April 24. (P)—Col. Charles A. Lindbergh town away at the annual meeting of the National Academy of Sei
Server of the veil of mystery which clouds the heavens and has held astronomers and many leaser men in thrall for centuries has been town major party organisations were generally successful. The Republican big seven was victorious and course.

The Smith delegates were opposed by supporters of Vance C.

lican "big serven" was victorious and Frederick L. Anderson, the Anti-Balcon League's candidate, who had announced himself for Hoover, but who was not recognized by the Hoover organisation, was defeated. The Democratic sists for delegates-at-large, headed by Senator David I. Walsh, was also successful, defeating the challenge of Mayor Lawrenge F. Quigley of Chelses, the young disturber who turned Madison Square Charden convention into a riot on the night the Klan resolution was debated four years ago.

to demands of administration leaders that States rather than the Federal government pay the cost of levee rights of way on the Missistippi River proper. He also accepted another revision sought by the President to reduce the membership of the proposed board to be charged with plaining the engineering part of the control program.

The bill as finally approved would create a board composed of the chief of army engineers, the head of the Mississippi River Commission and a civilian engineer to be appointed by the President.

For earrying out the control program the bill would authorize an appropriation of \$225,000,000. This money, however, would be available for use only for the lower Mississippi Valley except \$5,000,000 which would be allotted to carrying out flood control surveys and flood control surveys and flood control reservoir investigatins of the tributaries, and another \$5,000,000 to be set aside as an emergency flood relief fund.

SACRAMENTO. April 34. (F)—California apple and other fruit growers who export part of their produce to the British Isles have no reason to fear for the safety of their market if Great Britain demands labels indicating the country of origin, in the opinion of G. H. Hecke, Director of Agricultura. Rather the director believes such a requirement would work to the advantage of California and other western producers if its terms were adhered to.

A British committee is considering such an order, but has announced it will not be promulgated if it will ten to interfere with marketing of imports from British colonies. Besides dealing with the Mississippi Valley project, the House also approved a rider attached to the bill which would place one-third of the cost of the Sacramento Valley (California) flood control project upon the Federal government with an estimated Enderal character of \$17.

(California) flood control project upon the Federal government with an estimated Federal share of \$17,-000,000.

Another amendment to direct the Secretary of Agriculture to study the effect of reforestation upon floods likewise was adopted.

"SLUG" SLUGS 'EM WHERE THEY AIN'T

While there are scoffers at the thought of discord among the pachyderms and those who promote them the fact remains that the Hon Daro played with that part of the pachyderm trust controlled by Joe Stecher when he was champion and neglected the enemy. The Hon. Daro left Head Pachyderm Lewis of the opposing trust very much alone. Naturally when Lewis resumed the championship it was to be expected that he would seek to pay off the debt—with interest—much as Generalissimo. Til.

pionship it was to be expected that he would seek to pay off the debt—with interest—much as Generalissimo Tilden pays off his debts to Sumner Hardy forecalling him a big bum. But because he had heard that the Hon. Daro was nice to his wife and his seven children Pachyderm Lewis decided to let bygones be bygones. He even let the California Athletic Commission substitute Nich Lutze for Pat McGill, one of the Head Pachyderm's own private staff, as a grappling mate. If that isn't sweet, sugar by any other name would be a stingaree.

San Prancisco certainly went over the top with a bang in raising its quota of \$35,000 to send the American team to the Olympic Games this year. It took the boys just ten minutes to put their simoleons to-

BOOM

Though there was some little thunder participated in the pachyderms for our next wrestling match, it all seems to have subsided and "Strangler" Lewis, the heavyweight champion, and Nick Lutze will positively have at one another's toes next week.

In this wise are the hearts of a fat man, his wife and his children gladdened. Even the municipality of Glendale is aflame with joy over the fact that its leading citizen will stage the wrestling match of the year between the pachyderms. Thus are the worries, the unhappy moments, the sleepless nights of the Hon. Luigi Daro of Glendale ended.

maint just as well stayed out there
marming up for the old ball game
was right in Marty Krug's citchel
by that time.

Toison was the big noise in the
Angel attack, the slugging firstsacker poling out three singles before he connected with his home
run to turn in a perfect day at bat,
"Slug's" homer cleared the screen
barrier in deep center field, out by
the flag pole, and was his sixth circuit clout of the season. Toison
now is not only the league's leading
hitter, but the home-run king as
well, the latter honor being one
which he formerly shared with his
team-mate, Walter Berger.

Bruce Cunningham started on

team-mate, Walter Berger.

Bruce Cunningham started on the mound for the Angels, but proved, wild and ineffective in the six linnings he worked. After the Oaks had nicked him for five rums and eight hist Cunningham was lifted for a pinch-hitter and Norman Pilit, the bespectacled right-hander, took his place on the mound. Pilit blanked the Acorns during his three-inning stretch and was credited with the rictory.

The Oaks got off to a two-rum start by bunching a walk, a pair of hits and an error by Dittmar in the first inning. Tony Oovernor waited out four wide ones to open the contest and Lary followed.

April weather appeared in both summer and winter garb ranging from snow to showers. The heaviest snow in twenty years fell at Crookston.

SLOT MACHINES

BAKERSFIELD, April 24.—Ordinances may come and ordinances may come and ordinances may go, but alot machines go on forever. So think Bakersfield's City Councilmen, atthough last night, for the fourth time in the history of the city, they passed an ordinance prehibiting the operation of alot machines for gambling.

"Let them best it and we'll pass another one," was the challenge thrown down to slot-machine interests by Councilman W. J. Carlisle, after the majority of the city fathers concurred with Mayor L. K. Stoner that the ordinance "will hold water," and that if it is not strong enough to suppress machines of the type now used, new ones will be greated.

SACRAMENTO, April 34. (49) Tighten up the gun law, pass a uni-from State law regulating pawnbro-kers and amplify the State Bureau

tential losses to the State's future water supply through devastation of watersheds.

The State's forces in the main will take the field next week and will remain on duty until the first heavy general rains eliminate the fire menace. Punds have been made available through co-operative contracts with the counties for this work. Estimates prepared by the Forcestry Department have set the cost for forest protection and fire-prevention during the period ending June 30 at more than \$25,600. In preparation for the season, which forest officials admit gives every indication of being the most habardous in history of the State, fifty-six men have been employed on the State's forcets. These include trained inspectors, rangers, lookouts and pairolmen.

The State has been divided into seven districts with inspectors at the head of the rangers and firefighting forces in each. These have headquarters in Utaha. Treas, Ovoville, two in Sacramento, Tuolumne and Kern counties.

Other than these men the force

Resorts d cretive system of intercommunica-tion. He believes a State secret service should be established and hoped the State might be led to maintain auto - checking stations on all roads leading into and out of the State.

But even these changes. Chief Koening said, will not keep the gumman and his gum parted. He said the crock and thug do not have to buy guns; they supply ihemselves from automobile and pockets or take weapons away from citizens who fancy carrying guns protects them.

Members of the commission said that a fingerprint record of revolver jurchasers may be some help. They admitted, however, that no effective way to keep firearnis from entering the State has been found. In this connection, James A Johnson of Ban Francisco, chalrman, reported that the commission is working with the National Orime Commission.

Your Child's Teeth Keep them Free of Film, Mother

To it dentists trace tooth and gum troubles and that "off-color" look

Do you want your child to have pretaction from acid that leads to early decay forms. Oldmethods fail to combat it successfully.

Now in Pepsodent two new combatants

Mail the coupon then for a 10-day tube of Pepsodent, free. See what the world's leading dentists urge as science's latest attainment in tooth and gum care.

You will notice a film on your child's teeth. That's a frequent danger sign—an invitation for tooth and gum troubles. The same stubborn film that you can feel by running your tongue across

Mere brushing won't do. You must combat it. Ordinary dentifrices fail to fight that film successfully.

Film is the greatest enemy of tooth health. It clings to teeth, gets into crevices and stays. Germs breed in it and imperil both teeth and gums. The

ALWAYS DEAD TIRED?

are embodied - combatants approved by highest dental authority. They curdle the film, then gently remove it. Pepsodent also firms the gums. It keeps the teeth whiter, cleaner, more sparkling. It is the modern scientific method for better tooth protection. Insist upon it. Get a tube today at your druggist's. Or mail the coupon.

the intellectual throat of a poor lit-tie boy in school, but we make no effort to inform him of the condi-tions with which he will have to combat when he grows up and de-sires to avail himself of the oppor-tunities for economic advancement. "The world must face an inevit-able situation, prepare for it, and get rid of this rubbish in our minds. Clean up the garret and make room for something worth while."

PACHFICALLY MINDER

PACIFICALLY MINDED

PACIFICALLY MINDED

Mr. Esberg accepting the chairmanship, spoke briefly of what he hopes will be accomplished by the committee.

"We here in California." he said, "really are a Pacific power, and have been since our forefathers came across the plains. It is because of us, in great part, that we now have Alaska, the Hawaiian Islands and the Philippines. We are more internationally minded than most people and have a greater understanding of the various problems which must be met in the Pacific. I might say that we are Pacifically minded to a degree not found generally in this country. I think we are in the lead in beginning to understand and I hope that this committee will be the impetus for such general understanding as should exist if the peace and prosperity of the land is to be assured."

Chester Rowell, lecturer and columnist, spoke of the aims of the institute as a whole, saying that while it had held two meetings in Honolulu 'gnorance regarding its objects is profound."

ountries borderus

Ocean."

Toward the accomplishment of this object, Rowell said, there have been held in Honolulu two sessions at which representatives of a number of nitions have discussed to formally the problems presented uroper understanding the problems of the pr

ands of Foreman and Clark customers also thank you. These tests make "assurance doubly sure", and the purchaser of an F & C garment knows no element of chance contributes toitsamazing wearing qualities. In the only factory laboratories of their kind in the clothing industry F&C have had installed by the former head of the

-and the hundreds of thous- U.S. Bureau of Standards the exact devices used in the Government Bureau for testing textiles. Not only did this official supervise the installation of this machinery but carefully trained a staff capable of carrying on this exacting work. Before a mill order is accepted every piece of fabric must absolutely undergo this supreme test.

Every bolt, every thread of F&C materials undergo five gruelling, pitiless tests. The fact that F & C buy only from famous looms, and all weaves are guaranteed 100% virgin wool is not sufficient. The F&C standard—highest in the world—bars every element of chance. You have a right to demand these surefire tests no matter where you buy your clothes: Test 1—Weight uniformity (important to fabric strength); Test 2—Microscopic wool quality test; Test 3— Color fastness (hours of violet rays from a carbon arc—concentrated sunlight); Test 4—Accelerated Friction Test (condensing months of ordinary wear into hours of constant rubbing under heavy weights), and Test 5-Projecting microscopic test (magnifying cell structure of woolen fibers 20,000 times). To our knowledge we are the only manufacturer or retailer using these processes.

Double-Barrelled Guarantee

These tests do not end our responsibility to our customers. In the pocket of every F& C garment is our famous Written Guarantee-binding on us both as manufacturer and retailer. We guarantee fit, wear, and that the garment will give satisfaction in every respect. We are the only clothiers who can do this because we operate our factories and manufacture every garment under our personal supervision. We also guarantee free after-purchase service-sponging, pressing and also minor repairs during the life of the garment.

Inside Story of Foreman and Clark Garments

Look inside an F&C garment at the linings and trimmings, Benn's Mohair or Skinner's Satin, the exclusive inner front of linen canvas and fine Silver Hymo. Note some of the 36 handtailored operations.

Cities Service Company

5% Gold Debentures

Dated April 2, 1928

Due, April 1, 1988

Company will agree in the indenture to make available semi-annually beginning April 1, 1929, funds sufficient to retire 11/4% of these Debentures at the time outstanding, if obtainable, during specified periods, by purchase at or below 100 and accrued interest.

For further information regarding the Company and these Debentures, attention is called to the letter of Mr. Henry L. Doherty, President of the Company, copies of which will be furnished on request and from it will be noted, among other things, that?

Company: Cities Service Company controls, directly or indirectly through stock ownership, more than sixty public utility companies rendering electric light, power, gas and/or transportation service in seventeen states and the Dominion of Canada, serving territories having a population estimated to be about 4,000,-000, and more than thirty companies representing an important system of oil production, transportation, refining and marketing. The public utility companies render service to over 650,000 customers in more than 700 communities. The oil subsidiaries have crude oil. They own and operate seven refineries and about 900 miles of oil pipe lines. The more important petroleum properties are located in what is commonly called the Mid-Continent Field in Kansas, Oklahoma and Texas, and the natural gas business is conducted principally in Kansas, Oklahoma and Missouri,

Purpose of Issue: The entire proceeds derived from the sale of these Debentures will be used for the retirement of funded debt of the Company and for the retirement or acquisition of funded debt or preferred stocks of subsidiaries outstanding on December 31, 1927, thereby effecting a substantial saving in interest and dividend charges.

Capitalization: The consolidated capitalization of the Company and subsidiaries as of December 31, 1927, after giving effect to this financing, the application of the proceeds, the retirement and or exchange of certain other funded debt and the recent offering of additional common stock of the Company, shows outstanding funded debt, preferred stocks and minority common stocks of subsidiaries amounting to \$352,406,179; \$2,320,000 Equipment Trust Certificates; and \$71,514,356 funded debt of the Company which will be followed by preferred and common stocks with an aggregate market value based on current quotations of over \$375,000,000.

Assets: The consolidated balance sheet of the Company as of December 31, 1927, after giving effect to the financing mentioned above, shows total net current assets of over \$70,000,000 and total net assets, after deducting all proper liabilities other than funded debt of the Company, of over \$290,000,000 or more than 400% of such funded debt.

Indenture: The indenture will provide, among other things, that the Company shall not pledge any of its securities owned without equally and ratably securing these debentures, except in the case of purchase money liens and except in the case of pledge of certain assets in the ordinary course of business to secure current borrowings. The indenture may be amended in certain respects with the consent of the holders of not less than 85% of the outstanding debentures.

Earnings: The consolidated earnings of Cities Service Company and subsidiaries for the twelve months ended December 31, 1927, irrespective of the dates of acquisition, are given

EARNINGS OF MOTORS SOAR

Premier Industrial Concern With Net of \$69,468,576 Leads Steel by \$43,561,437 in Quarter

NEW YORK, April 34. (P)—The General Motors Corporation today maintained its position as the world's premier industrial concern, when it reported net income for the first quarter of \$60,468,576 as compared with \$25,907,139 for its nearest competitor, the United States Steel Corporation. The automobile corporation etc. After the regularly quarterly showed a substantial gain from its net income of the first quarter last year, \$52,851,408, while its steel-making contemporary fell well behind its last year's figure of \$30,924,338. General Motors income was equivalent to \$3.86 a share on the common stock, compared with \$3.90 a share last year, while United States Steel's earnings per share amounted to \$2.11, compared with \$3.90 in the first three months of this year, computed before the distribution of the 40 per cent stock dividend, while the motor corporation's 1927 earnings per share were calculated on a comparable basis, despite the 100 per cent stock split-up last autumn. Total earnings of the Steel Corporation directors on the common and preferred stocks. Distribution of the quarter of \$4,963,469.

Alfred P. Sloan, Jr., president of General Motors, reported that sales to users totaled \$43,013 cars in the first three months of this year, compared with \$2.90 in the great part of \$4,963,469.

Regular quarterity dividents of the quarter totaled \$160,668,830.

Regular quarterity dividents of the end of the quarter totaled \$160,668,809.

INVESTING is a Science

The Twentieth Century is rightly called "The Age of Science". The quiet laboratory and the research station have become vital factors throughout all industry today.

In the field of Investments, careful research and scientific analysis have come to play an equally important part. Selecting securities is no longer a haphazard matter. The progressive investment house is trained and equipped for determining the worth of security offerings with scientific accuracy.

Our facilities for sound investing are at your disposal regardless of the size of your investment fund.

Metropolitan Chain Stores, Inc.

7% Cumulative Convertible Preferred Stock

storys The Metropolitan Chain Stores, Inc., was organized in October, 1924, and took over from tration of a group of 63 stores. Since that time this chain has expanded at a conservative rais, crating 93 stores in this country and in Canada, making it one of the largest 90 to \$1 chain sto sects to add about 20 new stores this year and an oven greater number in 1929.

Business: The chain's field of operation extends from coast to coast and embraces the following States of New York, Massachusetts, New Jersey, Pennsylvania, Delaware, Virginia, Ohio, Illinois, Is Iowa, Utah, Oklahoma, Wyoming, California, Washington, and the Provinces of Ontario, Quebes, Scotia. The wide geographical spread of these stores is in itself a factor of great strength to the Mat This distribution of stores means that a severe economic disturbance in one section would have very

Sales and Ecratage. The sales and earnings, as cartified by Mesars. Carlatine Djorop & Con December 31, 1927, are as follows:

Net Profe 8470,801 531,647 \$8,675,403 11,006,875

Bulance Sheet: The certified Balance Sheet, as of December 31, 1987, adjusted to give effect to Current Assets of \$5,052,560.21, as against Current Liabilities of \$734,857.35. This is a ratio of 6.87 to Capital of \$4,317,702.86.

Purpose of Issue: The entire proceeds derived from the sale of this 7% Cumulative Convertible P (except the portion issued to replace the old 7% Preferred Stocks issued in 1924, which are now Cumulative Convertible Preferred Stock, Series of 1928, or redeemed) will remain in the business

Management: The Metropolitan Chain Stores, Inc., enjoys the manbeen secured by years of executive experience.

Price \$115 per share and accrued dividend.

LOS ANGELES EXCHANGE

Merchants' National Bank Soars 43 Points to Feature

Local Market Trading

Merchants' National Bank, on a jump of 45 points from the close of the previous day, overshadowed all other operations yesterday on the Los Angeles Stock Exchange. The stock opened at 195, a new record high, and advanced quickly to 200.

After jocksying up and down below this mark a surge of buying orders forced the stock to 230 and in the afterneon session, to 233. It closed at 215 for a net gain of 36 points.

Other banks lately associated al-4 to 59%. Union of California closely with the market movements of Merchants' National did not respond with any such degree of intensity. United Security, however, advanced 11 points to a new peak of 254, and closed at 228. This bank recorded a turnover of 206 shares while Merchants' National led 107. Para-American Western in the unlisted division, added 1-4 to 25% and 107. Para-American Western in the unlisted division, added 1-4 to 25% and 107. Para-American Western in the unlisted division, added 1-4 to 107. Para-American Western in the unlisted division, added 1-4 to 107. Para-American Western in the unlisted division, added 1-5 to 17. Para-American Western in the unlisted division, added 1-5 to 17. Para-American Western in the unlisted division, added 1-5 to 17. Para-American Western in the unlisted division added 1-5 to 10. 1031%. Mining stocks closed down. Particle Merchants' National held firm to 125% and the fits of 10. 1031%. Mining stocks closed down. Particle Merchants' National held firm to 125% and to 1031% and 100 to 25 to 30 cents and Comstock.

Trading in the oil division was inactive. Richifield was steady at 17. Rico Grande advanced 1 1-5 to 108.000.

Police Board's Traffic Buttons to Be Retained

Strenuous opposition to the Pire Commission's request for removal of discs placed to guide traffic at intersections and street-car loading zones was again voiced by the mem-

a problem.

Police Commissioner Thorpe cited the killed and injured in traffic acidents during the year and deared it was much more necessary protect the public than to remove the puttern for the hearting for the hearting for the specific of the second and the second control of the sec to protect the public than to remove the buttons for the benefit of the fir department.

The question was brought up when Secretary Jeffers read a communication in reference to new-type discs proposed. The communication Jay was

CITY DOUBLES IN POPULATION Expenses Hold Same Ratio

for Six Years Director Starts Scrutiny o

New Budget

Engineering Department to Lead in Needs

Charts prepared by City Budget Director Knox show that during the past six years Los Angeles has virtually doubled in population and that the expenses of the city gra-ernment likewise have doubled. Director Knox said yesterday that in his opinion this is a reasonable increase on account of the large area which the city covers and in

cryer May 1. It must be printed and filed with the City Council not later than June 1. Requests for allowances for the fiscal year by the various departments now are being analyzed. It is expected that these requests xfill total 435,000,000. Last year the departments requested \$29,855,707, and received \$23,856,368.

The amounts the departments can receive this year will not be known until next month when the city's income next year from taxes and other sources is known.

The engineering department s'ill leads as the largest branch of the city government, the police department second and the fire department third. In 1921 the engineering department had 1265 employees, the police department in 1921 numbered 775 and this year 2491. The fire department in 1921 numbered 775 and this year 2491. The fire department in 1921 had 792, today it has 1527.

AIR LINE TO

Time Getting "Welcome to Our City" Out of Council

out of the Los Angeles City Council yesterday, but permission was finally given for the circulation of petitions in the neighboring city for its consolidation with Los Angeles.

Councilman Alber, while speaking highly of Huntington Park and its desirability as a part of Los Angeles, raised the question that this city is constantly pressed for police and fire protection, sewer and other governmental service for the population of the present area, and wondered what the financial demands will be from Huntington Park in case of consolidation.

Necessary permission to circulate the annexation petition finally was given. Councilmen Alber, Davis and Webster voting "No."

AIR I INF. TO

REQUESTS ANNEXATION
The City Council yesterday received a petition from voters in the unincorporated county territory of View Park Addition, west of Angeles Mesa Drive and south of Adams street, asking for annexation to Los Angeles. The petition was sent to City Clerk Domingues for checking. If the petition is found to have been signed by the required number of voters, then a special election will be called in the district to vote on the question, of annexation.

are of 1,114,362. In 1921 the area of the city was 364 square miles, ioday it is 441 square miles, with flundington Park. Hawthorne and several other adjacent cities considering annexation to Los Angeles Traffic Commission, was voted down by the Board of Public Los Angeles Traffic Commission, was voted down by the Board of Public Utilities at a hearing yesterday afterior, coloring to an increase of the city owners.

AIR LINE TO DENVER AND AREA READY

Description of the increase of the proposal by property owners.

The decision was followed by applause for more than a minute, which indicated the strong sentiment against the pipan.

It had been proposed to change the routing of the line, operated by the Los Angeles Rallway, from Melrose to Bewerity Boulevard, Ramplor traffic traffi

The show, which will close on Saturday night, covers a block at Corinth avenue and Santa Monica Boulevard and has been arranged by a committee of the Women's Club assisted by Mark Daniels, landscape architect for the California Botanic Gardens. Proceeds of the show will help pay a \$2400 mortagge on the Women's Club Building.

Leaders Coming

With the avowed intention of obtaining the 1929 convention for Los Angeles, more than 200 Nobles of the Mystic Shrine, their wives and guests, left Los Angeles last night for Miami. Fia., to attend the annual convention to be held there. May 1, 2 and 3.

Before the party went aboard a special train at the Santa Fe depot an escort parade preceded on several downtown streets.

Aboard the special were Pred J. Wadley, Jr., Sim W. Crabill, George J. Ramsey, Leo V. Youngworth, who will be Potentate in 1929; Lawrence Cobb. George M. Adair, Stephen H. Perine, James W. Jump, Robert S. Sargent.

Myer Mendelsohn, Santa Fe passenger agent, is official escort for the special, while Kenneth Oillette is in charge of the Shriners. The filinerary calls for several stops en route, where local temples will entertain the delegates.

SLUMS LURE RICH DESERT BOY

Sixteen-Year-Old Heir to \$1,000,000 New Mexico. Estate Runs Away from Home to Seek New Experiences Beneath Bright Lights of Los Angeles

Often the city dweller strives country, but Pete Paine. 16
years of age, of Silver City.
N. M., has renounced a \$1,000,000 legacy and a comfortable
home on the broad acres of
his late father's ranch to seek
new experiences in the city.
Yesterday, in the files of the
juvenite missing persons'
bureau. Detective Lieutenant
Hanson, in charge, came across
the prosaic report and benind
it the strange story of the
missing ranch lad.
Young Pete left home on
March 31, last, and although he
had money in his pockets, he

chose to beat his way westward on a freight train, his associates the riff-raff of the country.

The police are not seeking Pete in places where money is spent lavishly. Those who come from his ranch home seeking him say he is intrigued by the city alums and life in those quarters. And it is there where the search centers.

He is dressed to correspond to the life he chooses, him is the chooses, him is a battered cap and a blue work shirt. His guardian, Walter C. Langer of Silver City, hes offered a reward, but the boy thus far has concealed his whereabouts.

FLOOD LOSS TO BE FIXED

oint Committee Starts Monday to Appraise Damage on Farms Below St. Francis Dam

Actual field work of fixing the amount of damage and arriving at figures to compensate more than 200 individual property owners in the Santa Clara Valley who suffered losses in the St. Francis Dam flood will be started Monday, it was announced yesterday by Leon Pressey, secretary of the Los Angeles-Ventura county joint committee.

**Text will be made to reach as possible, and yet give each claim arrived will be made to reach as possible, and yet give each claim. still be started Monday, it was altra-eccetary of the Los Angeles-Ventura coun Every effort will be made to reach a basis for a cash settlement in each case, and the individual property

case, and the individual property owner will be given an opportunity to discuss his particular damage and give his own estimate of the proper financial settlement. In order to do this a member of the joint committee will visit the farms and ranches in the flooded area, and with the owner on the property, attempt to reach an agreement as to the monetary damage.

With each individual case getting such special attention, it will be several days before the matter is adjusted over the entire valley, but the field representatives have been instructed to speed the work as much (Continued on Fage 14, Column 1)

The Los Angeles Woman's Christian Temperance Union will meet tomorrow at 2 p.m. in the First Methodist Church. Eighth, and Hope streets. Mrs. Effic Lindley will be the speaker.

of Drive for \$2,000,000 Building Fund Fourteen hundred alumni of the University of Southern California attended the dinner at the Biltmore last night which fired the opening gun in the alumni campaign to raise \$2,000,000 for a library and gymnastum for the university. The program was broadcast through KHJ and KFRC, the Don Lee radio stations in Los Angeles and San Francisco, which were hooked up by telephone, to other meetings held at the same hour in twenty other California cities and in New York, Washington, Chicago, Seattle, Phoenix, Mexico City and Honolulu.

Lieut.-Gov. Fitts acted as toastmaster and delivered the keynote address, declaring that "The university has a record of fifty years of achievement, and has inspired the ideals of the State and nation into its students throughout this period. We have the greater privilege of extending this work. It is our responsibility to do our share now as the student body and the faculty have done in the past."

PROGRAM OUTLINED

President Von Kleinsmid of the

TROJANS LAUNCH CAMPAIGN

President Von KleinSmid of the university characterised the meeting as "a committee meeting preciding the celebration which will be held on Commencement Day, 1830."
"The University of Southern Callfornia," he said, "chooses to remain in the heart of this city, which is destined to be one of the great cities of the world, because (Continued on Page 2, Columnia, and the continued on Page 3, Columnia, and the columnia and the continued on Page 3, Columnia, and the columnia and the columnia

PROOF OF THE PUDDING
Californians who now regard with pardonable pride the tremendous registration of voters for the Presidential tration of voters for the Presidential primary election next Tuesday will have little justification for self-esteem in this connection if the vote on election day fails to reflect the registration total. It may be assumed that the contest in It may be assumed that the contest in California for the Democratic Presiden-tial nomination will bring out a repre-sentative expression from the members of that party, and, likewise, it is prob-

didacy of Secretary of Commerce Hoover.

California Republicans outnumber California Democrats almost three to one, and the approval of Mr. Hoover's candidacy by all shades of Republican thought in this State is such as to represent virtually a unanimous indorsement of his aspirations for the Presidency. Yet to the country at large a mere nominal Republican vote next Tuesday not only will be 'used by the partisan opponents of Mr. Hoover to his disadvantage, but will be capitalized to the utmost possible degree by the Democratic party. Allegiance to Republican ideals and principles, as much as an expression of confidence in Mr. Hoover as the Republican nominee for President, should, The Times believes, impel every registered Republican man and woman in California to cast a ballot for the group of

Republican man and woman in California to cast a ballot for the group of Hoover delegates. The absence of any other Republican contender on the party's preferential ballot for President is not the result of any effort by the Hoover supporters to prevent a contest in this State.

Others desiring the nomination have surveyed the situation in California and have decided that a contest against Secretary Hoover here would be more than wasted, as his great popularity with the leadership and the rank and file of Republicans would mean defeat for any opponent or any combination of opponents. Hence, opportunity for a test of the relative standing of various Republican candidates has been present at all times.

Aside from the favorable effect on Mr.
Hoover's candidacy in the nation at large, a genuinely representative Re-publican vote next Tuesday will be in

It was in a little beanery close to one end of Angel's Flight. The waitress was Junoesque of figure and calm of eye. The man customer, we suspect, merely wanted to be saying something. It was conversation he yearned for no less than food.

"Are these eggs fresh?" he inquired.
"They never said a word to me,"
was the noncommittal answer, and she moved right on to the next cus-

"By golly!" grumbled the discom-fited man, "I bet if they had said a word to you they wouldn't be fresh any longer."

The Smallest

Progress has doomed the smallest business house in Los Angeles, the Tiny Barber Supply Company at 117% South Main street. This institution has exactly three feet of street frontage, and all its operations are carried on within less than fifteen square feet.

within less than fifteen square feet.

No-ho-hum."—Wakeful Naybor.

Out of Luck

Rarbord, head of the Radio Corporation of America, called attention to the fact that Rome endused prosperously as a republic under representative government for more than 500 years, but became an absolutism within 100 years after direct government of the people came into being. Gen. Harbord called this last period of Roman history before Octavius since it was more a series of dictatorial ships, but the dictators won power by demagoguery and appeals to popular prejudice, so perhaps the designation was justified.

In the world's history there are only a few instances of workable pure democracy. The New England "town meetings" are the outstanding example; but this government was simple and primitive, operated by a small and homogeneous population, whose only problems were such as ordinary common sense could solve readily.

The modern age is an age of special-

But the board properly prefers to err
on the side of safety and the survey will
be the consequence.

Those who want Mulholland Dam
abandoned and Lake Hollywood drained
forget that the necessary pressure for
Hollywood's water mains and fire profield the consequence of the help to the consequence of the consequence.

The modern age is an age of specialization. Government is a business, and like any other business, can be run successfully only by men who devote to it
their entire time and attention. We
govern ourselves best by el ring to represent us men who will make a study of
what is to be done, and who will try to
the consequence. abandoned and Lake Hollywood drained abandoned and Lake Hollywood drained forget that the necessary pressure for Hollywood's water mains and fire protection is obtained from the height of devise ways and means for doing it in the most effective manner. These men, and that to drain it willy speaking, are not our superiors.

what is to be done, and who will try to devise ways and means for doing it in this reservoir; and that to drain it willy mould subject Hollywood to water shortage and to the menace of a conflagration. If the structure should be deemed unsafe, of course there would be no alternative to its abandonment, and unless and until some other method of providing water pressure could be devised and installed, many Hollywood residences would be without water.

Before Mulholland Dam was built, the pump method of obtaining pressure was used for the benefit of the hillside homes above the level that could be reached by gravity flow from the San Fernando reservoir. These, then, were tew; now they are very numerous and the old pump system is entirely inadequate to supply them. Whether it is practicable to enlarge and fortify it is an engineering problem which has been submitted. With other problems, to the committee.

Some risk must be taken whatever in learning or intelligence, but from the devise ways and means for doing it in the most effective manner. These men, generally speaking, are not our superiors in learning or intelligence, but from the first possible, and that to devise ways and means for doing it in the most effective manner. These men, generally speaking, are not our superiors in learning or intelligence, but from the first possible of that they have to think about it they are apt to do it rather better than the relation of the will be done if we attempt to do it directly, in the time we can spare from earning a living.

The ditch digging does a better job of ditch digging than a justice of the Supreme Court would be capable of without experience. Legislator; are notoriously imperfect, but they do not make as many mistakes of actual judgment as do the voters who are confronted with a population of the time they are very numerous and the old pump system is entirely inadequate to supply them. Whether it is practicable to enlarge and fortify it is an engineering problem which has been submitted.

What is to doing it

This city has just lost the entire conle is not surprising that a woman is at tents of its second largest reservoir, this on the bottom of it; the surprising thing is that it is a woman named Susie Pear.

Who knows? The next subject of world discussion may be called Mayme.

It is rettle to tak of draining them all. the McNary-Haugen bill in that it never became effective and would have done no good if it had. From a dictator who relied on the popular will to give him power, to a dictator who relied on the army to give him power, proved but a short step in the case of Rome.

It has been there for nine years, but is so small that thousands of people who pass there every day never have noticed it.

"It's no use to write a piece about it now," J. D. Hall, the owner, manager and clerk, says, "for we've got notice to vacate June 1, when this building is to be torn down to make room for something more in keeping with the new City Hall."

MUPOAY) Hadn't You Noticed That? Lee: Is a pa-triot one who whoops it up for world peace or one who whoops it up for a big-ger Navy?

P. D. Q. up for both.

What's the Use?

L.S.: They tried to bomb the King of Italy the other day. It just goes to show that no matter how meek and downtrodden a man is, somebody can still be spiteful enough to pick on him.—Norton Jones.

If this rage for debunking history keeps up, we suppose our school boys soon will have to begin their study for the Revolutionary War with a chapter on the Battle of De-Bunker Hill.

The Gay Life

Leeside: The funny thing is that the roadhouse out our way, which observes the law by serving it in a teacup, and stands stanchly for the teacup, and stands stanchly for the better life by closing up just in time to let its patrons attend surrise service, if any, still announces closing time by having the orchestraplay "Home-Sweet Home" to that gang of homeshunners. It should at least have it sung thus. "Be it ever so humble, there's no place like hoho-ho-hum."—Wakeful Naybor.

MILITANT STATESMEN By James J. Montague
How often I've listened to statesmen
Emitting from voluble throats
The volumes of speech they employ

The Water Que LOS ANGELES, April 21.-[To the Editor of The Times:] As a member of the fact finding board of engineers and geolo-gists appointed by the District Attorney to examine into the failure of the St. Francis Dam, I have become thoroughly fa-miliar with the conditions re-sponsible for the failure of this structure.

sponsible for the failure of this structure.

All reports submitted to date are in accord on one point: that is, that the failure was due to faulty foundation material on which a portion of the dam was constructed. This fact could and would have been disclosed by a sufficiently thorough examination of the formation, and by subjecting it to the necessary tests before the construction of the dam.

It has been the policy of the chief executive of the city to ap-point men to serve on the Water and Power Board who are without howeledge of another. water and Power Board who are without knowledge of engineer-ing and geology, to avoid the possibility of controversy, limit-ing the activity of this board to the direction of matters of

policy.

The failure of the St. Francis
Dam is the best possible evidence that fact is a better foundation than policy; and controversy, instead of being an element of weakness is an element
through which weakness is
eliminated and strength develoced.

Pei-fu, who ruled over nearly all of Central China a year ago, but because of gradual loss of power recently gave up his job of war lording, and became a Tibetan monk. Foreigners in China consider themselves out of luck. Wu was their friend. He would permit no abuse of them. The Chinese whom he ruled regarded him in high esteem because of his many reforms, most of which advanced the interests of the people. But militant powers beset him on all sides and nothing availed him but flight.

SHORT SESSION

Henry Ford had tes with the King and Queen of England. Asked what they talked about the motor magnate blandly answered "About an hour." That wouldn't be long enough to tell half the Ford jokes.

eight or nine years, the city will face a serious shortage.

The water supply system of the city of New York has been developed under the direction of a board made up of men trained and capable of directing engineering projects and of investigating geological conditions. The success of this board, extending over a period of many years, indicates that they have been somewhat more successful in handling matters of policy than the nontechnical board of the city of Los Angeles.

necessary to provide water for future generations. WALTER GORDON CLARK,

Consulting Engineer. Each to his trade is the belief of an Allentown (Pa.) restaurant which displays this sign: "The bank serves no soup. We cash no checks." TREES AND

CIVILIZATION BY CHARLES COKE WO The study of trees in rela

ture. Art and literature de-nucled of trees would be as bar-ren as deserts.

Who has not been charmed

m of b can hardly be over The government preachment wou

by subjecting it to the necessary tests before the construction of the dam.

The testimony before the Coroner's jury indicated clearly that the Water and Power Board has performed as an inactive or "rubber stamp" board. The personnel of this board, so far as I have been able to ascertain, is and has been for some times made up of men without experience in engineering or geology. They have not examined into facts or conditions, and have not undertaken to confirm the accuracy or good judgment of the personnel of the engineering department, but have accepted the recommendations of the engineering department without question and have ratified and confirmed the actions of this department without check.

This is not a criticism of the honesty or integrity of Mr. william Mulholland, who has served the city well and faithfully for many years. Not is it a criticism of his assistant, Mr. Van Norman, nor of other engineering assistants in the department, for whom I have a high regard. But it is a criticism of a policy which permits the erscion of structures endangering life and property, without a full investigation, and without exercising every possible precaution, and utilisting all available knowledge to assure the permanency of the structures.

It has been the policy of the chief executive of the city to appear to the permanency of the structures.

It has been the policy of the city to appear to the constructure of the permanency of the structures of the constructures and beauty. To name only a suturn leaf of the middle-western mountain sah is as golden as the Collifornia poppy. The birch, constructures and served the city without a scriptor of the constructures and beauty in the cast of the constructures and beauty in the constructure of the

Johnny Applessed died in 1847 in Fort Wayne, Ind. In memory of this good and useful man scores of organizations have planted apple trees in forest preserves and elsewhere. What a fitting and useful thing it would be to follow this custom every

over a period of many years, indicates that they have been somewhat more successful in handling matters of policy than the nontechnical board of the city of Los Angeles.

This board has provided New York City with a water supply which, exclusive of the distributing system, has cost (to August 30, 1926) \$375,000,000. While expending this sum, the water department has kept out of politics and scandal, and the city of New York has retained the good-will of the communities in the areas from which it now draws its supply.

It is necessary for Los Angeles to look forward to its water supply not merely to meet the requirements for the next seven of the years, but for the next twenty-five years, and then to raise her sights for the next fifty years. Los Angeles is a desert city. The water to meet her needs must of necessity be brought to her from great distances, and adequate local storage must be provided.

The rates paid for water by the citizens of Los Angeles are at present below those at which water is supplied to many cities more favorably located. The water rates in Los Angeles are at present below those at which water is supplied to many cities more favorably located. The water rates in Los Angeles are at present below those at which water is supplied to many cities more favorably located. The water rates in Los Angeles are at present below those at which water is supplied to many cities more favorably located. The water rates in Los Angeles are at present below those at which water is supplied to many cities more favorably located. The water rates in Los Angeles are at present below those at which water is supplied to many cities more favorably located. The water for fulture generations.

We should renew our interest and friendship in our tree pairs to the present system, and to prepare plans and acquire territory and do all of the things nocessary to provide water for future generations.

Night Explained

Unless some unforseen testimony develope at this merning's session of the Julian Petroleum Corporation overissue case, the ten defendants on trial before Superior Judge Doran charged with overissuing and selling spurious stock of the company, are expected to rest.

Last night at adjournment only two more witnesses were scheduled to take the stand; C. C. Streeter, who has been called by S. C. Lewis, indicted president of the company, and one witness that is to testify for I. L. Rouse, banker.

Nine of the defensions had rested last night, and Le Compte Davis and W. J. Ford, representing Rouse, announced that but one witness will be called by him, and he then will rest.

BERMAN'S NAME CHANGE TOLD

The contingency which court observers declare may cause a continuance of the defense is the testimony of Streeter, for whom a bench warrant was issued Monday by Judge Doran. Yesterday, Streeter's attorney announced he will appear in court this morning.

John F. Murphy, representing Jacob Berman, introduced but one witness, a document, and took less than five minutes to present Berman's defense, which consisted of reading an authorization for hadoption of the trade name, Jack Bennett, which he used during his operations here as the loan and stock-pool manipuliator of the Julian company.

In rapid succession, E. H. Rosenberg and Louis Berman rested their cases. William G. Kotteman, Julian auditor, next in order on the indicament brought three witnesses to testify concerning his audit of the A. C. Wagy & Co.'s books.

BOOK REMOVAL EXPLAINED

These witnesses testified that the the witnesses to testify concerning his audit of the A. C. Wagy & Co.'s books.

Saturday Brings Barthelmess's War Photoplay

With Norma Shearer in "The Actress" and the Publix revue, "Mikado of Jasa," approaching the end of their engagement, the Metropolitan Theater is making preparations for the launching of Richard Barthelmes's photoplay, "The Patent Leather Kid," which comes to the house Saturday.

The Patent Leather Kid" for the first time popularly.

Various organizations will be invited to attend special performances of "The Kid."

The One Hundred and Bixtieth Infantry, California National Guard, which thook part in the war access of the picture, will be invited through Capit George Bradley. Later the officers and men at Fort MacArthur will be guesta.

The Southern Pacific Railroad, which transported the Barthelmess company to Camp Levis, Wash, also will stage a "night" for its employees at the theater. Other "nights" will be recognized by the American Legion, Reserve Officers' Training Corps, retired army officers, Boy Scouts and military schools in the Los Angeles district.

Members of Barthelmess's college fraternity. Pat Upsilon, also have streenists to attend a "Dot Party".

MME. ALSEN TO SING

with a group of lighter songs during the event.

Mms. Alsen's success as Elizabeth in "Tannhauser," the opening night of the local Chicago Opera season, is well remembered, as well as her appearances as soloist more recent-ly with the Philharmonic Orches-tra, when she sang the prelude from Isolde's "Love Death" (Wag-

TWO ARE NAMED FOR LIGHT OPERA ROLES Women Approve

Nita Martin, well-known screen player and musical comedy prima donna, will sing one of the featured roles in Hans S. Linne's light opera, "The Beautiful Rival," which has had its premiere in Berlin, Germany. It will be presented in Los Angeles as soon as the book and lyrics have been Americanized, a story relates.

Mabel McCane, recently the headine attraction at Pantages, will appear in another featured part as soon as her present vaudeville contract is fulfilled, it is added.

DIVINE WOMAN," FOX MOVIETONE BOOKED

Friday will bring to the Uptown Theater two features. One is Greta Garbo's newest. Metro-Goldwyn-Mayer picture, "The Divine Woman," which will be there for one week, and the other is Fox Movietone News, "The Talking Newsreel," contracted for the Uptown for an indefinite engagement.

In "The Divine Woman" Miss Garbo is said to eclipse some of her past performances. She has a varied role, that of a young woman who manages to climb from the slums of Paris to the idol of the theatrical world.

"But we were wrong. The Racket has proved by our matinee business that it is liked by women."

VAVITCH LIKES FILM

Michael Vavitch, United Artists player, and one of the original Moscow Art players, says of "Cuar Ivan, the Broadway Palace, "It is by far inically correct of Russia's outstanding ruler, Cuar Ivan. It is a very good lesson and teaches us to be when the strict of the situes of Paris to the idol of the strict of the original Moscow Art players, says of "Cuar Ivan, the Terrible," now being shown at the finest interpretation from a historical standpoint and technically correct of Russia's outstanding ruler, Cuar Ivan. It is a very good lesson and teaches us to be with the strict of the strict

geles theatergoers are partial to fast-stepping melodrama, "Women

Political Drama

When "The Racket," the comedy-drama of Chicago intrigue, now at the Belasco Theater, was first presented in Los Angeles, the management was fearful that it was not a play that would attract women. The contrary, it is said, has proved true.

"The theme of the story, in our minds," said Fred J. Butler in discussing the matter, "was one that would appeal greatly to men—but we felt at first that women would not care much for it, because there is no excessive amount of pretty clothes or any particularly handsome hero.

"But we were wrong. The Racket' has proved by our matinee business that it is liked by women."

Meets Approval Proving conclusively that Los Angeles theatergoers are partial to fast-stepping melodrama, "Women Oc On Forever," Bessle Barriscale's current starring vehicle, goes into tis eighth week at the Music Box tonight.

Four of the feminine members of the cast are well known leading women. Bessle Barriscale and Helen Jerome Eddy are old favorites. Ruth King, leading woman for Willard Mack in "Honor Be Damned," in New York, and Barbara Winthrop, also a New York player, were brought to the coast for this production.

Howard Hickman, John Stambouch, Stuart Erwin, Ben Hewlett.

Howard Hickman, John Stambough, Stuart Erwin, Ben Hewlett, Harry Von Meter, Arnold Gray, and Ward Hamilton are also seen.

communities of committee of manhers of the body's give-club, asked their support in the campaign. Mr. Heintz stressed the fact that Los Angeles is one of the few cities in the United States to produce its own opera.

Dr. Maurice Smith entertained his committee of workers in the association campaign with a lumcheon in the Billimore yesterday afternoon. Meric Armittage. manager of the Dopers Association, explained why support was being asked at this time.

The making the opers a truly civic enterprise by antisting the support of the most prominent men and women, we feel certain that in a short time we shall attain the ideal toward which opera companise have strongled for centuries—self-supporting opers," said Mr. Armittage. The increased interest which a large membership will imspire will result in increased patronage. Then, too, we will feel justified in bringing me for other productions.

Plan Advanced to Cut Evpenses of Public Works

To eliminate expensive city engineering department work in making surveys and preparing plans for public improvements which are not desired by the property owners and later are protested out and abandoned, Councilman Jacobson yesterday asked the City Council to take steps to ascertain in advance the wishes of the property owners.

He suggested that possibly a simple resolution of intention for an improvement could be prepared and the property owners heard on the matter. He said this method is followed in eastern cities.

Councilman Randall declared the Public Works Committee, of which he is chairman, now is demanding 55 and 60 per cent property-owners petitions before ordering plans and proceedings for improvements started. Councilman Jacobson's suggestion was sent to City Attorney Stephens for a report.

Harry B. Kiriland, head of the Business Development Company of Toledo, O., was the principal speaker at the Advertising Club luncheon at the Biltmore yesterday when he discussed the periods of history when civilization was threatened and referred to the late World War as the fourth crists.

"Applied sciences have made it possible for economists to set the world ahead instead of going back to the set of the world ahead instead of going back to seld." From threatened chaos evolved a process of continued production and the mechanical development of America presents a new form of competition.

"The miner who used to produce one ton per day is now sending out seven tons. Lumber has leaped from 100 feet to 780 feet per man. The cobbier who made one pair of shoes per day gives a return of ten pairs. In agriculture the cost of \$1960 per square mile to cultivate the land has been reduced to \$250 per square mile.

"These conditions call for new mythods. Men are learning that a new element has entered the field of advertising and selling and are responding to a co-operation and teamwork unknown in the world's history."

Prandent Armstrong 1 esided:

"Trendent Armstrong 1 esided:

"The second the selling and are responding to a co-operation and teamwork unknown in the world's history."

Prandent Armstrong 1 esided: Harry B. Kirtland, head of the

SANTA MONICA. April 24. (Exclusive)—As midnight approached,
three couples still remained in the
Bon Ton Ballroom's marathen
dancing contest at Ocean Park, after more than 125 hours of steady
stepping, with only fifteen minutes'
rest out of each sixty.

Those still on their feet are Norris Scott and Evelyn Torrance of
Ocean Park; Horace Dunn and Violet Pompey of Venice, and Myrtle
Curtis and William Dockings of
Ocean Park. They seem to be strong
and capable of continuing for many
hours more, in the opinion of physicians who examined them, all of
the three pairs started dancing at
Culver City last Thursday, and the
winner will receive a prize of \$1800.

Cryer Speaks at New Church

Mayor Cryer, Father Piatt and Joseph Scott were principal apealsers at the first public inspection of the new 8600,000 Church of the Blessed Saurament, Sunset Boulevard and Cherokee street, last night. Maurice De Mond, president of the Breakfast Club, presided, being introduced by Rev. John A. Mellagh, rector of the church. It will be dedicated formally in June.

IS MAYOR OF WHITTEE WHITTEE WHITTEE, April 24.—Albert N. Chamness, one of the two holdower Councilmen in the recent city elections, was chosen Mayor last night at the regular meeting of the City Council. The three new men on the Council Cherokie as W. G. Rich Counc Cher.
